

Teach Taiwan

英美達文教事業有限公司

2024/05/21

To whom it may concern:

I am Kevin Lee, the project administrator from Teach Taiwan and have had a working relationship with Michael Patrick Clarke as a foreign English teacher (FET) for 4 years. Teacher Michael joined my program in August 2020.

I am delighted to write this evaluation letter for Mr. Clarke, who has been an exceptional educator at Daxi Senior High School. He consistently demonstrated a strong commitment to fostering a positive learning environment and nurturing the intellectual growth of students.

Teacher Michael places the needs of students at the centre of his teaching philosophy. He takes time to understand each student's strengths, weakness, and individual learning goals. Through this personalized approach, he has been able to motivate students to reach their full potential and achieve remarkable academic results. His first tutee, whom he taught one-on-one over two years, for example, is now studying at National Taiwan University. I have been observing teacher Michael's from day one; the classes' English proficiency advanced from basic to intermediate level. There has been a remarkable improvement thanks to teacher Michael's dedication and contributions.

Teaching in a foreign country especially in Taiwan where students are not familiar with bilingual environment could be challenging. Classroom management could be difficult at first for many FETs. Teacher Michael has an innate ability to manage classroom dynamics effectively. He maintains a well-structured and orderly environment that promotes positive behaviour and optimal learning. When teacher Michael is faced with challenging situations, he remains calm, composed, and resourceful. He is always able to redirect students' focus back to the lesson with minimal disruption.

Teacher Michael has shown his professionalism and collaboration with Taiwanese teachers during his service in Daxi Senior High School. He is a dedicated teacher consistently delivers outstanding educational experiences for students. I am confident that his passion, dedication and innovative approach will continue to positively impact the lives of many more students in the future.

Sincerely,

Kevin Lee
